Further Steps Taken To Solve City Curbside Garbage Problems

The City of Grayling is warning city residents that appropriate legal action will be taken against persons refusing to comply with garbage pick-up rules. The biggest problem facing the city is garbage placed at curbside at the wrong times. Refuse should be placed at curbside no earlier than Sunday evening and no later than 8 a.m. Monday. Leaves and trimmings should be placed in bags. Brush and tree limbs should be cut to manageable lengths and placed at curbside separate from the trash.

Infractions of garbage pick-up rules will be handled by city police and the city attorney.

Court Hearing, Sport Clubs Fuel No-Kill Controversy

The court case on the no-kill rule for the Holy Water of the AuSable continues Monday, August 18, at 10 a.m. in 46th Circuit Court in Grayling before Judge Alton T. Davis.

The state's Attorney General's office is asking the judge to dismiss the case for several reasons. One of the areas to be looked at Monday will be the legal filing date for the lawsuit filed by the no-kill opponents in the case. The state will contend the no-kill opponents only had 21 days to file after the Natural Resources Commission adopted the no-kill rule in February. The no-kill opponents contend the date for filing started when the Director's Order was published March 17.

The state is also going to introduce an

amicus curiae brief from the Federation of Fly Fishers into the case. At its annual meeting August 13, 1985, the FFF passed a resolution supporting no-kill on the Holy Water saying it was "very concerned over the decline of the overall fishery and populations of 16 to 21 inch trout. We believe that such regulations will restore good populations of trophy trout to these magnificent waters."

FFF, with 50,000 members, filed the brief with intention of addressing these claims by the no-kill opposition: that no-kill is opposed by the majority, the NRC acted arbitrarily, and the plaintiffs will suffer irreparable harm.

The Michigan Council of Trout Unlimited also filed papers in the case showing they

support the no-kill rule for the Holy Water.

Pete Stephan, the head of the Committee To Oppose Catch and Release, said his group went to the Michigan United Conservation Clubs executive meeting in Lansing July 28 hoping for an amicus curiae brief from MUCC in support of their efforts in court. MUCC, in keeping with their policy of not challenging the NRC regulatory authority, declined to join the court battle. But they did something even better, Pete Stephan said. They sent MUCC director Tom Washington to the NRC meeting to ask the commission to rescind the no-kill rule. Washington told the NRC the no-kill rule on the AuSable had caused open wounds to the sporting public and created animosity among anglers, riparians, and local resi-

dents. He also said it promoted ill will toward the NRC and he indicated the MUCC felt betrayed because the action was instituted before the South Branch no-kill study was completed.

The MUCC also said the new no-kill rule will cost thousands of dollars in studies and litigation and it could hurt the South Branch study. The MUCC asked that the rule be rescinded until the South Branch study is completed.

Pete Stephan said the Committee to Oppose Catch and Release will be ready for the hearing Monday. He said the Committee has spent about \$12,000 so far on the no-kill court fight, and he would have much rather watched this money and effort go toward a project such as stream improvement.

Family Love Perseveres After Lightning Tragedy

By Carin Bentley

It was my privilege to meet and talk with the family of John Sullivan, a handsome 18-year-old who was the victim of a "freak" accident. John, who was a brilliant student (grade-point average of 3.78) and a junior starter on Marlette's high school basketball team, is the grandson of long-time Grayling residents Bud and Doris Sorenson.

John was playing golf July 15, 1985, with three other youths competing in the Michigan Junior Championship Invitational Golf Tournament at Forest Akers Golf Course when tragedy struck. The boys decided to call it a day at the 14th hole after they had become soaked to the skin from rain. As they were walking back to the clubhouse carrying their golf bags, lightning struck them.

Doctors believe that John, at almost 6'4", was the target, as he towered over the other players. They found evidence that a 50 million (yes, 50 million) volt electrical charge surged through his body. He had marks on his hip and right foot where the voltage left his body only a milli-second later, but oh, the damage it caused.

All four players were knocked to the ground. One of them came around by himself, enough to go to the clubhouse for help. He and another boy were hospitalized less than 24 hours and have completely recovered. The third boy was in a coma for 36 hours, awoke, and left the hospital four days later.

The jolt to John interrupted his heart's steady beat sending it into ventricular fibrillation, a quivering of the heart muscle. Without regular contraction, the heart cannot pump blood carrying oxygen to the brain, and brain cells can die quickly, within 4 to 6 minutes. When help arrived for John, they gave him cardiopulmonary resuscitation on the golf course, but his heart did not begin to beat steadily until paramedics sent another electrical jolt through his body in the ambulance. Doctors guess that his brain was without oxygen for 7 to 29 minutes and there was widespread damage to his cerebral cortex (the thinking part of the brain).

John has made slow progress since July. He seems to understand what is being said to him and can follow simple directions such as straighten out your arm or leg.

I have been overwhelmed with the dedication and love shown by his wonderful, caring family. In this respect, John is a very fortunate young man. He needs 24 hours-a-day attention and the entire family pitches in to help. He needs to be turned every 45 minutes, 24 hours a day. His parents sleep in shifts. His sister, Kirsten, 16, does the laundry. His brothers Matthew, 11, and Ryan, 5, do what they can. The grandparents stay with the Sullivans months at a time to cut down expenses.

Up until John's tragedy, his father, Dick, ran the 110-year-old family farm. But he has been forced to sell the livestock and machinery to help pay the enormous expenses for John. (Blue Cross, Blue Shield covers some expenses, but not all.) Dick now spends all his time with his son. John has to be stimulated with vibrators, hot air blowers, ice cubes, and tickled with a feather. They let him smell pleasant fragrances several times a day and use flash cards with numbers and letters — it's a never-ending job.

His mother Marcia reminds me of a nurse. She understands her son's every noise, grunt, or movement. He dad carries John from his bed to the couch, later to a chair, to the porch, or maybe to the bathtub and then to his wheelchair, which the family bought for nearly \$3000.

The expenses go on and on. His body requires 4800 calories each day in order to keep his current weight. He has to have a special liquid formula which costs \$600 for 22 cases. He needs 20 cases every two weeks. The formula is given to John through a hose which leads to a hole in his stomach. At night they must switch him to a food pump which administers 200 cc's an hour. John doesn't like this part and lets his mom and dad know by grunting noises or a cry.

Besides his food, he needs food bags, syringes, stomach tubes, urine bags, underpads for the bed, and more. The cost is endless and not covered by insurance.

After the accident, John was at Mary's Free Bed Hospital at \$600 a day. A stay at St. Luke's Hospital was \$110 a day. John was also at Mayo Clinic. Blue Cross, Blue Shield paid some of this, but still owes the Sullivans at least \$15,000. Blue Cross, Blue Shield says it needs more information, more forms filled out by doctors and nurses.

The family had to borrow thousands and thousands of dollars from her parents and are deeply in debt. Currently, John is receiving physical therapy sessions and oxygen treatments in Florida at a cost of \$100 a session. Their insurance company claims these treatments are not yet an approved treatment practice, but it has helped John and that is what is important to his family. The trips for treatment add extra costs for gasoline and overnight stays. The only income the family has is the money they receive for renting out their farm land.

Ever since last year when I read about John's plight in the Detroit Free Press Magazine, I have prayed for his recovery and for his devoted family to pull through this, and I wondered what I could do to help. This is where the good people of Grayling come to mind. They have come through on many occasions for people in need. There will be a bake sale at St. Mary's church Saturday and Sunday, August 23 and 24, after all masses. A trust fund in John Sullivan's name has been set up at Grayling State Bank and a Las Vegas night is being planned (a date will be published later).

Please be generous by supporting either the bake sale or the trust fund. Persons who wish to help further may call Bentley at 348-8891. Donations to the Trust Fund may be sent to John Sullivan Trust Fund, Grayling State Bank, P.O. Box 489, Grayling, Mi., 49738.

From Our Corner...

We hope you pay attention, if you're interested...

Of late, some of the policies of the Avalanche have gotten out of hand...

The most important is the letters to the editor that appear in the Editor's Mailbox...

More and more we are receiving letters that all they amount to are thank yous to businesses, individuals, groups, clubs, etc., and has no bearing on what is intended in the use of the Editor's Mailbox...

The concept of letters to the editor is for a person to express their opinion on certain things that are happening in our community...

If a person has a view on something, this way they can express their opinion as long as it does not attack an individual or business in a slanderous way, or that may be libelous...

That is what letters are for...not thank you notes...

One other no-no in the letters to the editor...now that we start the mad rush in the political world with the election of governor down through federal, state and grass roots offices, the letters are not to be used as an election tool...

Already we have started to receive letters from out state that all they do is condemn the other parties candidate...all we can say, they will not appear in the Avalanche, these kind of letters also apply locally...

We have been remiss lately on the length of the letters to us...this also will be governed...a letter that we feel is too long will be returned to the writer...if the writer wants to rewrite, and re-submit, we will consider it once more...

Also, more and more, organizations, groups, clubs, etc. have been using their articles as a thank you vehicle...this part of the article will be cut out...may we suggest, if you wish to thank all these people, buy some thank you notes and send them to whomever you wish...

Also, we have been asked about the liners that appear in the Bit's...they also are advertising something, and they are paid for...

If it weren't for advertisements, you wouldn't be reading this, or any part of the Avalanche...we would like to add, if you like us...patronize the merchants who advertise in the Avalanche...

We don't normally respond to some of our letters we receive that are not for publication as such, but, are against our reason for running an article that appears to be construed as against a person or persons...

We received a letter from a Grayling lady last week about an article that we ran about Blind Youth attending Camp AuSable...

It seems as how this lady's husband has been partially blind most of his life, she took exception to the first paragraph: "If you think summer camp is just for the strong, healthy and able-bodied, think again..."

She mentioned the many attributes her husband acclaimed, and we salute him, but, the article was not written by me or any of the Avalanche's staff...

She implied that we should apologize for that statement...if she wishes an apology, may we suggest she write, National Camps for Blind Children, 4444 South 52nd St., Lincoln, Nebraska 68506...that is where the article came from...and I'm sure there was nothing derogative against any one certain person...

Have you ever gone to a family reunion and never found where it was, I did, right lake but wrong park...

Time to bid T.J., Stefany and Amber goodnight, and to all have a nice weekend, we're getting close to where we celebrate the laborers...

American Red Cross
We'll help. Will you?

The Bible Speaks

From Calvary Baptist Church

JEHOVAH

OUR RIGHTEOUS KING

Did you know that the present world will be ruled by a righteous king for 1000 years? The prophet Jeremiah foretold us of this righteous king, "Behold, the days come, saith the LORD, (Jehovah) that I will raise unto David a righteous Branch, and a King shall reign and prosper, and shall execute judgment and justice in the earth. In his days Judah shall be saved, and Israel shall dwell safely; and this is his name whereby he shall be called, THE LORD (JEHOVAH) OUR RIGHTEOUSNESS." (Jer. 23:5, 6).

When our Lord Jesus Christ returns from heaven He shall be called "KING OF KINGS, AND LORD OF LORDS" (Rev. 19:16). He shall destroy the false religious system (Revelation 17), and the false political and commercial system (Revelation 18). We are told this will be a righteous war. "...in righteousness he doth judge and make war." (Rev. 19:11). The army of saints from heaven will come with Him. "And the armies which were in heaven followed him upon white horses, clothed in fine linen, white and clean." (Rev. 19:14). He will then rule the nations with a rod of iron. (Rev. 19:15). This rule will last for 1000 years. (Rev. 20:4, 6).

Our Lord Jesus Christ is this righteous branch of David and coming world king prophesied by Jeremiah. He was called both "the seed of David" and the "Son of God" in Romans 1:3, 4. He is identified as "the root and offspring of David in Revelation 22:16. "I Jesus have sent mine angel to testify unto you these things in the churches. I am the root and the offspring of David, and the bright and morning star." As eternal God he is the root of David. When He came to earth and

was born in the womb of the virgin Mary He took to himself a human body in the flesh of David. Therefore, Our Lord Jesus Christ created David, and was born of David.

Have you accepted our Lord Jesus Christ as your king of righteousness? "For he (God) hath made him (Jesus Christ) to be sin for us, who knew no sin; that we might be made the righteousness of God in him." (II Cor. 5:21.) When we accept Jesus Christ as our savior and God, He "...is made unto us wisdom, and righteousness, and sanctification, and redemption." (I Cor. 1:30). His coming reign is certain. Every human being will either accept Him as a loving and righteous king now, or face Him in anger and wrath as a righteous judge later.

Election Fun's Just Starting

by Richard Milliman

IT LOOKS LIKE THERE will be an election for governor here in Michigan this November after all.

For a while, the political seers were not giving anyone much of a chance against Michigan's current Boy Governor, the Hon. James Blanchard.

Truth is, of course, that Gov. Blanchard has done right well for himself—politics-wise, at any rate—during the first four years of his tenure in the Lansing oval office.

Any Republican challenger will, indeed, have a tough time. But for a while there, many pundits pooh-poohed the whole thing, giving Gov. Blanchard a free ride to a second term.

But things seem to have changed a bit in many minds. The republican primary results have caused many political viewers to scratch their collective heads, and mutter something that sounds like.... "Now let's hold on there just a minute."

AND WHAT HAS CAUSED the collective double take?

Mainly it's the certification of Wayne County Executive Bill Lucas as Mr. Blanchard's opponent—but more importantly, it's the way Mr. Lucas won rather than the mere fact that he did, indeed, win the Republican primary.

Lucas came from behind, and he won big.

There are those who will contend that Bill Lucas didn't win so much as Dick Chrysler lost. And there may be some truth in that claim, too.

After all, Mr. Chrysler was beset with all sorts of problems about his personal and business activities, and the media certainly did raise a lot of questions about them. For the most part Mr. Chrysler did not do a satisfactory job of responding. As a matter of fact, he chose primarily to ignore the charges, and cry 'persecution' instead.

Chrysler partisans contend that if they had only had a few more days, he could have counteracted the adverse publicity and he could have won. Maybe ... maybe not.

BILL LUCAS MEANWHILE had his own set of problems, with staff and friends and family and money and a campaign which had all the momentum of a sailboat in a dead calm sea.

But apparently something was going on, at least in the minds of Republican voters. They came out strong for Bill Lucas on Election day. And as the old saw goes, that's the only poll which really counts.

Actually, if Lucas had lost, the Republican party would have had quite a bit of explaining to do. Mr. Lucas had been wooed from the Democratic party to become a Republican he had been paraded in and out of the White House and other Republican shrines as a prime catch: Not only was Mr. Lucas a former Democrat, he also was black, and he could be the first elected black governor in the

history of our country. And a Republican at that.

Imagine the chagrin if Bill Lucas had lost in the primary. Some of the politically wise thought that a black candidate could not draw Republican votes in conservative outstate Michigan. Such fears were openly expressed.

But Bill Lucas attracted outstate votes, carrying 35 Michigan counties, including such enclaves of white majority as Kent and Ottawa and Charlevoix. True, Dick Chrysler carried more counties in the primary; but Bill Lucas got more than his share, too.

As expected, Mr. Lucas did well in the cities, both Detroit and outstate — well for a Republican primary, that is. One key to the emerging interest in the November challenge now is how well will Mr. Lucas do in these cities — where the black vote in Michigan is concentrated — in a general election and against an incumbent Democrat governor.

Therein lies the tale, as the saying goes.

A COUPLE OF LESSONS emerge from the primary voting.

First is that Michigan voters are indeed color blind, at least most of them are. They voted for Bill Lucas not because he was black — although some did, without a doubt; but they did not vote against him because he was black, either — at least, most of them did not.

They voted for Bill Lucas because they thought he could beat Gov. Blanchard, or because they were impressed with his background, or because they liked what he said, or because they agreed with his views, or they liked his smile, or for some more-or-less objective reason.

That's good. Race really didn't determine the outcome. We all should take a little bow for that.

A second lesson is that money isn't everything. Dick Chrysler spent almost \$3 million, and almost pulled it off — coming from a self-starting underdog position to become the front-runner and the most discussed person in the election.

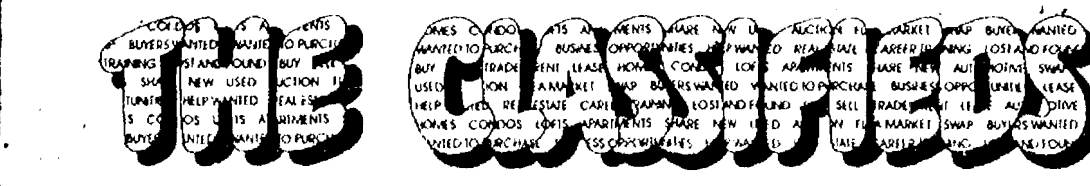

Money couldn't buy voter favor, when the rest of the package before the voter was questionable. Money is important, but it can't do the impossible — at least, not in this case.

SPEAKING OF MONEY Gov. Blanchard also was opposed in the primary — but by someone who never had a chance in fact drew only a handful of votes.

Yet Gov. Blanchard spent about \$1.3 million in the primary, which is much more than any of the serious Republican candidates spent, except Mr. Chrysler.

Why? Only the exceedingly naive would suggest it was for the primary. But it all counts in the end.

So the election lines are now drawn. It promises to be quite a race after all. Hold on to your hats — the fun's just starting.

Put Michigan First.

AGRICULTURAL POLICY

Here in Michigan, agriculture is important, not just to farmers, but to all of us.

Our farmers work hard. I know...I've lived and worked on a farm all my life. Farmers deserve a fair shake from the government...and they haven't been getting one.

Last year's farm bill was the single worst piece of farm legislation ever to come out of Congress. It lowers the prices farmers receive for their products in 1986...and it will lower prices even further in 1987.

This farm bill doesn't help us. It hurts us because it threatens the existence of the family farm...and it will lead to corporate takeovers and rising food prices.

I say it's time to put Michigan first.

Michigan farmers don't want subsidies. All they want is a fair price for their products and a chance to make a decent living.

Japanese Youth Visits Local 4-H Family

EXCHANGE STUDENT—Crawford County 4-H'er Mary Boone (left) and her family, of Grayling, are hosting Yukako Matsuura, from Japan. The Crawford County visitor is among 60 Japanese young people and advisers who are spending a month with Michigan families through the Michigan/Japan 4-H/LABO exchange program.

A Japanese youngster has an opportunity to experience American family life this summer in Crawford County through the Michigan/Japan 4-H/LABO exchange program.

The Crawford County visitor is among 60 Japanese young people and advisers who arrived July 26 for a month long stay with Michigan families. All are

members of Japan's language education LABO Party Program.

Crawford County 4-H'ers Mary Beth Boone and her family of Grayling, are hosting Yukako Matsuura.

The LABO/4-H exchange, initiated in Michigan in 1974, is coordinated jointly by the LABO International Exchange Foundation and the Michigan State University Cooperative Extension Service 4-H Youth Program.

"The LABO Party Program is designed to create, through language, an awakening of international understanding and awareness among Japanese children," explains Roy Spangler, Crawford County Extension Director.

More than 60,000 youngsters are tutored through the LABO Teaching Information Center in Tokyo. Starting at an early age, the children listen to tape-recorded English and Japanese stories and then dramatize the characters in English.

Japanese youths visiting Michigan have been paired with 4-H members of the same age and sex. Host families are encouraged to maintain their daily routines, everyday family life in American homes.

"We are excited about the opportunities for these youngsters of two different cultures to establish close relationships during the next month," Spangler says. "We hope some of our 4-H hosts will visit their LABO friends' homes in Japan next summer."

Doodles From The Tall Timber

By Wendell L. Hoover,
Park Interpreter

I'm sure you have viewed someone's terrarium and marveled at how nice it looks or at the variety of plants growing therein. If you are so inclined or perhaps the children are interested, the following may help. You can use almost any glass container from an aquarium to a mayonnaise jar. In all terraria the most important requirement is a relatively tight seal to contain the moisture.

Start with a two-inch layer of small pebbles or coarse sand mixed with charcoal, which helps prevent souring, on the bottom of your container. Over this, add one or two inches of damp leaf mold. You might mix a very little loam with the leaf mold.

What and how much to collect depends upon the size of your container. Mosses usually do well if given water and little direct light. Ferns also do well, but size is often a problem and care must be exercised not to cut the main root.

There are numerous lichens of which the British Soldier is the best known. Their pale green stems and bright red caps add just a touch of needed brightness to the terraria.

For additional variety, you might want to use small ceramic caricatures of wildlife, or you might even want to let a small spider live in the terraria. A small spider will feed upon the minute insects to be found in the plants, but a large spider will need an occasional fly or ant.

GPA News

Susan Hass of Bellwether public relations in Gaylord was the speaker for the July 29th meeting of the Grayling Promotional Association. Susan has her own consulting firm and provides a wide range of public relations service for a variety of clients. She stressed that one of the main goals of public relations is to determine how a person, group, or any other entity, is perceived by others. A group such as GPA needs to look ahead to form a picture of how we will present ourselves to other businesses, organizations, and visitors, and then plan our policy and activities to help meet these goals. All groups desiring to promote Grayling and Crawford County need to work together to present a unified picture. When the proper image is decided upon, everything must be done to coordinate our efforts.

At the August 5th meeting, president Karen Kammer announced that GPA had helped the Milltown Festival committee by selling over 2000 Milltown Festival buttons. There was some discussion regarding sidewalk sales with the idea that perhaps they would be more successful if held on a different weekend than Milltown. Mary Jane Knibbs, chairman of the GPA balloon committee for the Crawford County Fair, coordinated plans for Saturday.

Connie Schmidt announced that invitations for the Michigan officers wives annual party had been sent and should be RSVP'd by this week.

Next weeks meeting will concentrate on GPA's fall activities. First will be the decorating of the retail community, and then the organization for the November Festival of Lights Kickoff to be held November 28th.

GPA never sits still, they promote Grayling and the surrounding community whenever and wherever they can. Don't you want to join GPA???

Herbal Corner

Flog me, hog-tie me, and hang me in the nearest tree. Do what you will, but first, not without an explanation. Trying, without too much success, to rest after preparing for and having the tours through the farm during Milltown Festival, followed by the Frederic Fun Day in the next week with two major appointments (one of which, I nearly forgot and took me out of town) and my son's wedding in the Lilliana Gardens this past week, well... There really is no excuse for forgetting you, my reader. But I did forget you, and I humbly beg for your forgiveness. I will not be that busy again.

Salvia officinalis, malva meaning "health" or "salvation" and officinalis meaning "medicinal", is literally sage. Officinalis, in botanical terms, means that the herb is or was listed in the official pharmacopoeia. You did not know that did you, darlin'? There are still a few that believe that sage will cure tuberculosis and treat snake bites effectively. It is also said that sage will reduce nervous headaches and sore throats.

Sage should be trimmed back in the spring of every year, but replaced after three or four years due to its tendency to grow woody and taste as such. Before flowering, sage is harvested and dried in an airy place out of the sun until crumbly. Grind it by putting it in the blender or have it "rubbed" by placing it on a wire screen and rub a handful of sage back and forth on the screen. Your "rubbed sage" will fall below the screen in a puffy pile. Placing sage near your cabbage plants will protect cabbage from its insect enemies and make it more digestible. Cucumbers and grass shoots will be stunted with a sage plant near them. What about chicken? Why, darlin', with sage you stuff it.

Herbally yours,
E. Diana Cerelli, C.H.

Strolling Around Town

By FAY

This week's stroll took us to the South Side to Cobble Creek apartments where we found a very well-kept apartment complex with flowers planted in various places throughout the area and parking lot and two new apartment buildings that we didn't know existed — built sometime this spring we learned. When going down Gierke Road we spied a most unusually bright display of flowers behind building 131 where Fred and Barbara Moggio live. They had returned to Grayling a year ago and Fred needed a hobby which turned out to be gardening. They have beautiful zinnias and impatiens as well as many other kinds of flowers so along with a thick green lawn around the apartments and bushes which he also ringed with flowers, it certainly provides a bright spot.

RSVP Reports

Aleta Thompson, Director
Our busy RSVP volunteers were at both the Crawford and Roscommon Fairs. They were setting up displays, selling tickets, parking cars, and in the evening, monitored the exhibits.

Thursday's Senior Day at Roscommon, got underway by Master of Ceremonies Karl Klappa acknowledging the Kings and Queens present from area community centers and RSVP. They were Walter and Catherine Pastalewicz from the Houghton Lake Center. Beulah and Karl Kregger from the Roscommon Center and Jenny and John Mennion from the St. Helen Center and Treva and Bernie Engel from Crawford County representing RSVP.

This Royalty observed the presentation of awards given to Earl Westbrooke from Grayling, the oldest man, Margaret Schnor from Houghton Lake, the oldest lady, Gladys Monroe Harrisburg, Illinois, who came the farthest. Jim and Anna Serbus, from Higgins Lake, the longest marriage. Elmer and Theresa Penton from Grayling, the newlyweds. Leon Dulton from Hudson, Florida, had the most children (9). Gertie Baker from Houghton, the most grandchildren (35) and Edna Feldhauser from Grayling, 43 great grandchildren and 2 great great grandchildren. Angela Kirkum, from Grayling had the youngest great grandchild, one month old. The Grayling Songbirds under the direction of Charles Kirt and the Roscommon Kitchen Band under the direction of Rena

Johnson entertained the large crowd. We look forward to next years county fairs.

As we get closer to the end of August we went to hear from our volunteers who have expressed a desire to work in the Crawford AuSable and Gerrish Higgins School systems this fall. Come into our offices or call us at 348-4341 or 348-8322 at the Grayling office, or contact the Roscommon County office at 366-5613.

Our Mystery trip is coming up in September and we will be announcing the date soon.

We are proud of all our volunteers, you served 37,446.45 hours from June 1985 to May 1986. You drove 64,646.50 miles during the same time.

Congratulations to Leo Bagrosky this week for his Hole-in-One that he shot last Tuesday evening, August 5, while playing in the Tuesday night league. He used a 7-wood to ace the 145-yard No. 8 hole. He was in a foursome with Ken Carlisle, Tim Guenther and Charles Guenther.

The Men's stroke play championship was held August 2 and 3 at the Grayling Country Club. Eighteen holes were played each day to determine the champion. Rudy Martinez was the winner holding a narrow one-stroke advantage over runner-up, Chris Trim. Paul Hetrick was the winner in the B Flight followed by Fred Arwood and Gary McLaughlin who tied for second place. In the C Flight, Norm Neidrick was the winner followed by Dennis Henning. Honorable mention goes to Art Weideman, Tom Hall, Roy Vogelsberg, and Bill Hunter.

The Wednesday Morning Women's league was rained out on August 6 so there are no scores to report.

AARP To Meet

The Crawford County Chapter No. 1681 of the American Association of Retired Persons will hold the August meeting on Monday the 18th instead of the 25th.

We will be meeting at the home of John and Helen Leykauf at 4239 Norwood Drive, Roscommon.

To facilitate driving, we will meet at the south end of Glen's parking lot at 11:00 a.m., and leave there as a group.

This will be another pot luck picnic and a short business meeting will follow. Please bring a dish to pass and your own table service. Meat will be furnished by our chapter.

ATTENDS FIELD GEOLOGY EXPLORATION — Josh Woodland of Grayling recently attended the minerology and field geology exploration in the Summer Youth Program at Michigan Technological University. He is shown here looking for copper specimens among rocks at the Baltic Mine. During this workshop, students spend most of the week on field trips where they explore rock piles near the abandoned copper and iron mines in the area. Woodland was among 1200 junior and senior high school students attending the fourteenth annual Summer Youth Program held at Michigan Tech July 6-August 2. Each student has the opportunity to participate in one of the forty-seven week-long explorations. Program design focuses on exploring careers and developing new skills through laboratory, classroom, and field experiences. Each exploration is directed by a Michigan Tech faculty member or another specialist in that area of study. Woodland, son of Robert and Judy Woodland, is in the seventh grade at Grayling Middle School where he is on the honor roll and a member of the school band.

COA News

Support The
Network That
Supports You...

Your local Commission on Aging is a primary resource for persons 60+ in our community to receive assistance and support. The mission of COA is to care for and find new ways to meet the needs and provide services and programs for persons 60+ and over in Crawford County.

Our facility is a multi purpose unit that provides a variety of programs and services designed to respond to problems, concerns, and real life hardships encountered by older adults. We also provide many activities that enrich, enhance and educate the lives of seniors. Our staff strives to be constantly flexible, responsive and open to adapting with changing needs and/or availability of funds.

The Aging network is a large group of concerned agencies, organizations, and senior citizens. Locally, many services are provided everyday by COA staff and volunteers either in the

seniors homes or at the COA office. We exist because whether young or old, weak or strong, we will be all of these things some day. Our society values independence, hard work, and the value of making our own decisions. We, as a society, provide care and comfort for those who express different needs at different stages in their lives.

We are helpers sometimes; and sometimes we realize that with a little help we can assist you to continue to make your own choices and remain independent and still lead a valuable satisfying and comfortable life.

We exist because federal, state and local governments allocate funds to provide needed services. However, increases in funds do not always match increases in costs to operate programs and services. All govern-

and services. All governmental grants also require local matching funds. To make up these funds, we rely on donations and fund-raisers. We, too, must pay rent, telephone and food bills, plus insurance increases, supply costs, etc.

We rely on local funds as well as support from those persons COA assists.

How can I support the COA?

1. I can give a donation for my meals at the COA site.
2. I can give a donation for my home delivered meals.
3. I can give a donation for my homemaker service.
4. I can give a donation for my chore service.
5. I can come to the COA site more often for meals and activities.
6. I can remember to always sign my name in the meal sign-in book.
7. I can attend city council and county commissioner meetings to support COA requests for funding.
8. I can express my views to my local, state and federal government representatives.
9. I can volunteer my time to assist other seniors through activities at the COA site.

These are just a few of the many ways to offer support and encourage the growth of services and programs at COA and keep pace with rising operational costs.

We hope you will continue your support and we encourage you to inform others of the services provided and ask them to use our services.

**Ed and Velma Lobdell
New COA Representatives**

Congratulations to Ed and Velma Lobdell, the new COA Representatives for 1986-87.

Ed, who was already familiar with the Grayling area, brought Velma here for their honeymoon 51 years ago, and they camped on the shores of Lake Margrethe. In spite of the fact this was Velma's first camping experience and there was rain, thunder, and lightning all night, her introduction to Grayling was a thrilling experience.

Their dedication to Grayling became apparent when they commuted from Detroit on weekends; in the winter months, Ed and Velma were busy selling hot dogs and hamburgers at what is now Hanson Hills while their son was out enjoying the ski

slopes. Their retirement 10 years ago allowed them to move here permanently, and they've been busy ever since.

The Lobdells provide volunteer help all over, and happily work "where ever needed", as commented on their nomination form, by their friends, and by the many organizations and people they have assisted. Ed and Velma are active in RSVP, Calvary Baptist Church, AARP (he is Vice President, she is Treasurer), and they are regular drivers for the COA Meals on Wheels program for home bound persons. When they have the time, they enjoy dancing, cards, fishing, boating, swimming, and playing the organ.

It is appropriate to write about the Lobdells as a couple because that's the way we know them. Their togetherness is obviously an asset to the community as they lovingly go about their "duties".

The Lobdells have 2 families; their son, his wife and three children live in Texas, and their foster family with three children live in Mt. Clemens. Ed and Velma are very proud of their 6 grandchildren. Well, Ed and Velma, we are very proud to have you represent us!

**Resource
Review**by Bruce Patrick
Conservation Officer

Effective September 1, 1986 Conservation Officers will have a new tool in their effort to control snagging in Michigan. On that day "snag hooks" will become unlawful to sell or possess statewide.

Although unlawful to use for many years, there was no law against selling or having the so called "silver spider" or "M-60" snag hooks until now. The only reason this much needed prohibition came about now is as a compromise for legislation which has extended snagging on certain Lake Michigan tributaries.

The section of Act 189, P.A. 1986 which speaks to the subject states: "A person who possesses or sells in this state any multipointed hook with a weight permanently attached is guilty of a misdemeanor..." The first offense is punishable by a fine of not less than \$100.00. The second offense carries a fine of not less than \$300.00 while the third and subsequent offenses will cost at least \$500.00. In addition to the above fines, court costs and jail time may be assessed.

The law does not limit the area where these hooks are unlawful, therefore, the use, possession and sale anywhere in the state is unlawful - not just near salmon streams.

Another reminder: the "legalized snagging" area at Foote Dam on the AuSable River has been phased out this year. There is no where on the Lake Huron side of the state where foul hooked fish may be kept.

Tom and Marian Welsh left on Tuesday, August 5, for Millington where they stayed with Warren and Betty Reed. The next day, Tom, Leeds DuBois of Vassar, and three other airplane enthusiasts flew in a private plane to the Air Show in Oshkosh, Wisconsin. The Welshes returned home on Thursday.

Mr. and Mrs. Harry Souders and Mr. and Mrs. Leo Post attended the 40th wedding anniversary of their brother and wife, Mr. and Mrs. Shirley Corsaut in Cheboygan. Dear Whitey:

Though we have made excellent progress in our campaign to make our city look better by planting flowers, improving our City Park, building a sea wall along the river near Ray's Canoe Livery and building new streets on a regular basis. We still have a few problems that need to be resolved to make our city look its best for area residents and tourists.

I refer to the practice of placing rubbish and trash at curbside either after regular garbage collection on Monday or before Sunday afternoon. This makes our city look bad and is not necessary. If trash is placed at the curb by 8:00 A.M. on Mondays it will be removed by 3:00 P.M. If property owners have a problem with trash removal they may call the City Office for advice. We urge all of you to help us make our city look nice.

The second matter which requires attention is the lack of mowing of weeds from property in the city and the accumulation of junk, old cars etc. on private property. We would appreciate property owners cooperation in keeping their property mowed and uncluttered as we attempt to improve the image of our community.

Thank you in advance for your cooperation in this matter.

Regards
Jerry W. Morford

Mr. Howard D. Madsen,
Publisher
Crawford County Avalanche
Dear Mr. Madsen:

Byne Memorial Baptist Church of Albany, Georgia has been sending a group of young people and adults to Grayling during the last three summers to assist the Grayling Southern Baptist Church and Rev. Donn Broeker with special Vacation Bible Schools, evening services and building needs. The people in Grayling have been the most kind and cordial people of anywhere we have traveled. During our visit this last month, July 25 thru August 1, we had the need for a hospital. Mercy Hospital is to be commended for their fine care. Our bus driver became seriously ill and had to be admitted to the hospital. The staff of Mercy Hospital give the best of care and understanding for our needs.

Each year we have tried to be in Grayling during the Milltown activities. This year we had an entry in the parade and also participated in the Sunday morning worship service at Mercy Hospital. We appreciate your fine city for being a great host and going beyond the call of duty to care for strangers.

Sincerely,
Clay Krummel
Administrator

August 9, 1986

On Saturday, August 9th, my husband was on his way to the landfill station. When he stopped at the intersection of North Down River Road and Roberts Road he saw newspapers blowing in every direction.

In the middle of the road were two grocery bags with newspapers in them that had obviously fallen out of someone's vehicle. Traffic continued as usual.

My husband drove around the corner and stopped to pick up the bags, as he believes litter is a real eyesore.

Another vehicle stopped - but only because he believed my husband had caused the mess and proceeded to jot down our license number.

How many of you Grayling citizens drove by those newspapers and said to yourselves, "It's not my mess, I'm not going to clean it up"? By the way, who is the real culprit?

Mrs. Ginger Casey

Perry Reunion Held at Hanson Hills

The 11th Perry reunion was held at Hanson Hills on August 2, 1986. A potluck luncheon was provided followed by a White Elephant Sale, games and prizes for the children. A basketball game was played with the "old timers" playing against the 21 and younger. Experience prevailed, with the Oldtimers

winning 44-4.

Relatives from throughout the country were in attendance. Renee Moore of Arizona traveled the greatest distance to attend the reunion. Also in attendance was Burton Perry, brother of Joe Perry of Grayling, from Florida who had not been back to the Grayling area for over 20 years. The oldest person attending was Harvey Mattoon, 82, accompanied by his wife, Leona (Perry) Mattoon of Pontiac. The Mattoons stayed with Wanda Cardinal.

The youngest member present was Brandon Vernier of Milford, Michigan. The family with the most in attendance was the William Small family of Milford. Trophies were presented for all categories. Sharon and George Bogaert of Ferndale were in charge of the day.

On Sunday, 42 members of the family went down the AuSable River on a canoe trip stopping at Louie's Landing.

Visiting Dr. and Mrs. Steven Perry of Grayling were the Bogaert's, the Luke Block family of Arkansas, the Martha Bradford family of Kansas City, and friends, the Smalls, Vernier's, and Moore's of Milford, and Caryn Small and friend of Mississippi. Shirley and Steve Perry are in charge of organizing the reunion next year.

Steve Fick Update

We've seen a turn-around at last. Steve seems to be doing real good. The respirator may come off this week yet, and then he'll start working on his legs. The doctors are very encouraging and say he will walk again. So we praise God everyday.

We are totally overwhelmed by the cards he gets from everywhere and everyone. Letters from former school teachers and total strangers, cards from friends and people that just read about the accident, and the reassuring phone calls.

This is without a doubt the hardest thing we've ever gone through but we've never felt alone. If we've learned anything from all this, it's that there are a lot of wonderful caring people out there. We hope it's all up from here. We are so grateful. His address is: Steven Fick, Northern Michigan Hospital, Little Traverse Division, 416 Counable, Petoskey, MI 49770, Room 259.

CHURCH DIRECTORY

we are his

Some years ago I had a private secretary who guarded and protected my schedule almost too severely and to a fault. She gave most people the third-degree of questioning when they came to my office without an appointment.

But every day one little person got passed her without so much as a question. When this little girl finished kindergarten downstairs she would dash upstairs, run pass the secretary who waved her on in, and she'd come crashing into my office always as welcomed as a fresh breath of spring.

Why? She was my daughter! It was not a matter of WHAT she had done nor what she wanted with me that gave her immediate access to me. It was WHO SHE WAS.

And when we approach God, it is not in terms of what we know or don't know; not what we have done or not done, but rather, WHO we are. More accurately, WHOSE we are.

We are His. "We are the children of God, and if children, then heirs, heirs of God and fellow heirs with Christ..." (Rom. 8:16, 17)

Mental Deterioration and Confusion

The majority of elderly people are mentally alert and competent. These people, who comprise 70 to 80% of the elderly population, are active in the community and are living independently or making their homes successfully with their families. Many others with keen minds are in homes or other facilities that provide them with the necessary physical support. It must not be assumed that because a person is no longer able to live alone he is no longer mentally competent. A well-trained intellect does not decline with age alone. However, a sense of personal worth and value is

essential to a continuation of mental health and stability. Custodial care is required for those who are no longer alert, and since health workers provide that care, they see a larger number of patients who do suffer from some degree of mental incompetence. It should be kept in mind that only 5% of the total elderly population need custodial care and only 1% are found in mental hospitals.

The behavior patterns indicating changes in mental health vary greatly. Sometimes the changes are subtle, taking place gradually. At other times the changes occur abruptly and are rather severe. These changes in mental alertness or emotional stability may be progressive or limited to a single episode.

People of all ages adjust emotionally to stress situations in ways that have proved successful in the past. The aging of an individual does not alter the expectation. If anger and tantrums have worked in younger days, there is no reason for a person to believe that they will not continue to do so.

In the same manner, if withdrawal from or rejection of the offending person has been effective in achieving goals, the individual will choose this method of handling the situation. Unfortunately, too many people fail to take these facts into account when they view the behavior of elderly persons. An old person is often judged by preconceived, stereotyped notions of how one should behave or react. It is important also that an elderly person has less resiliency and flexibility. The ability to adjust to stress and change is greatly diminished.
